Illustrated by Dennis Nix.

“She learned the truth about the System's "equality" hoax. She gained an understanding of the unique historical role of the Jews as the ferment of decomposition of races and civilizations. Most important, she began acquiring a sense of racial identity, overcoming a lifetime of brainwashing aimed at reducing her to an isolated human atom in a cosmopolitan chaos.”

*

“Life is uglier and uglier these days, more and more Jewish.”

*

“We will suffer grievously for having allowed ourselves to fall under the Jewish spell.”

*

[In 211 pages, the word “Jew” is used 139 times.]

William Luther Pierce
(Andrew Macdonald)

1978

“One thing I still can’t figure out is why the media people have stuck you with that ‘neo-Nazi’ label, just because you want to assure the survival of the race. After all, they’re White too.”

“Harry and Colleen both started to speak at once. ‘They’re certainly not White,’ Colleen blurted out first. “Virtually all of the media are controlled by Jews, and they call the tune for everyone else in the media. **The elimination of our race is at the top of their agenda.**”

*

“The Jewish nation, the Jewish race, whatever you want to call the damned thing— is at **war with our people**, make no mistake about it. I’ve been in the front lines of one little part of that war long enough to have a pretty good understanding of it.”

William Luther Pierce
(Andrew Macdonald)

Main Points

- White Nationalism is not new and has a longer history than Racial Equality
 - White Nationalism is not a fringe ideology, but in many cases it is institutionalized and mainstream
 - White Nationalism is on the rise
 - White Nationalism is not confined to the US, but is a global problem
- White Nationalist Terrorism is deadlier than Radical Islamic Terrorism
- White Nationalism and Anti-Semitism are two sides of the same coin
- White Nationalism is Nazism and Hitler's *Mein Kampf* is still their Bible

What is White Nationalism?

1) **White Supremacy:** White people are superior to all other races

2) **Ethno-State:** Belief that the U.S. and other European nations should become “ethno-states” based around white identity

3) **Anti-Immigration:** People of color and immigrants should be removed from “white” nations (US, Britain)

4) **Replacement Theory:** There is a Jewish/globalist/socialist plot to send immigrant “invaders” into “white” nations in order to pollute “pure” white blood and make whites a minority

5) **White Genocide:** There is a plot to permanently end the white race.

GOP Rep. Steve King asks why 'white nationalist' and 'white supremacist' are 'offensive' terms

King questions what minorities have contributed to civilization

This is a unique burden for the white man, that our fate is entirely in our hands. And it is appropriate because within us, within the very blood in our veins as children of the sun, lies the potential for greatness.

That is the great struggle we are called to. We are not meant to live in shame and weakness and disgrace. We were not meant to beg for moral validation from some of the most despicable creatures to ever populate the planet. We were meant to overcome—overcome all of it. Because that is natural and normal for us. Because for us, as Europeans, it is only normal again when we are great again.”

How it all began - Political Correctness is Cultural Marxism

Most Europeans look back on the 1950s as a good time. Our homes were safe, to the point where many people did not bother to lock their doors. Public schools were generally excellent, and their problems were things like talking in class and running in the halls. Most men treated women like ladies, and most ladies devoted their time and effort to making good homes, rearing their children well and helping their communities through volunteer work. Children grew up in two-parent households, and the mother was there to meet the child when he came home from school. Entertainment was something the whole family could enjoy.

What happened?

If a man of the 1950s were suddenly introduced into Western Europe in the 2000s, he would hardly recognise it as the same country. He would be in immediate danger of getting mugged, carjacked or worse, because he would not have learned to live in constant fear. He would not know that he shouldn't go into certain parts of the city, that his car must not only be locked but equipped with an alarm, that he dare not go to sleep at night without locking the windows and bolting the doors – and setting the electronic security system.

The Great Replacement

It's the birthrates.

It's the birthrates.

It's the birthrates.

If there is one thing I want you to remember from these writings, its that the birthrates must change. Even if we were to deport all Non-Europeans from our lands tomorrow, the European people would still be spiraling into decay and eventual death.

Every day we become fewer in number, we grow older,we grow weaker.

In the end we must return to replacement fertility levels, or it will kill us.

Immigration is an Invasion

We are experiencing an invasion on a level never seen before in history. Millions of people pouring across our borders, legally. Invited by the state and corporate entities to replace the White people who have failed to reproduce, failed to create the cheap labour, new consumers and tax base that the corporations and states need to thrive.

This crisis of mass immigration and sub-replacement fertility is an assault on the European people that, if not combated, will ultimately result in the complete racial and cultural replacement of the European people.

All through immigration.

This is ethnic replacement.

This is cultural replacement.

This is racial replacement.

This is **WHITE GENOCIDE.**

Dylann Roof

“As an American we are taught to accept living in the melting pot, and black and other minorities have just as much right to be here as we do, since we are all immigrants. But Europe is the homeland of White people, and in many ways the situation is even worse there. From here I found out about the Jewish problem and other issues facing our race, and I can say today that I am completely racially aware.

Ni**ers are stupid and violent. At the same time they have the capacity to be very slick.”

The El Paso Shooter Manifesto

In general, I support the Christchurch shooter and his manifesto. This attack is a response to the Hispanic invasion of Texas. They are the instigators, not me. I am simply defending my country from cultural and ethnic replacement brought on by an invasion. Some people will think this statement is hypocritical because of the nearly complete ethnic and cultural destruction brought to the Native Americans by our European ancestors, but this just reinforces my point. The natives didn't take the invasion of Europeans seriously, and now what's left is just a shadow of what was. My motives for this attack are not at all personal. Actually the Hispanic community was not my target before I read *The Great Replacement*. This manifesto will cover the political and economic reasons behind the attack, my gear, my expectations of what response this will generate and my personal motivations and thoughts.

Politicians suggest video games are to blame for the El Paso shooting. It's an old claim that's not backed by research.
