January Forum

You won't want to miss hearing our speaker at the "Forum" on January 19, just one day before the 43rd President of the United States will be sworn into office. We have experienced a historical election event, and Dr. James Wall, a professor at NVCC (Annandale), Department of History and Political Science, will speak about the Electoral College's purpose and role in the election, as well as the many "twists and turns" in deciding the winner of the presidential election. Through our questions we may be able to get his insights on the impact of this election process on future elections. Dr. Wall will be one of the faculty members teaching the Spring course "History Presentations by NVCC Faculty" (Course 1314).

Last Chance

Attempts made during the past year to organize a Financial Forum for interested LLI members were not successful. Before we totally give up, we are offering one "last chance" to our LLI members in this endeavor! We need several members to come forward and provide guidance and leadership to organize such an informal gathering of interested members. "Last chance" is Friday, January 19, 2001, during our Spring Kickoff. We are asking all interested members to meet after the Kickoff Meeting. We need to know who is interested and if there is a sufficient number to form a financial interest group. We will be available to facilitate the organizing of the group.
